Institute

SIIT is an online institute model designed to provide Self-Paced Learning and Certification for various Technology courses, including Industrial Training for industry readiness.

SIIT - Scholars International Institute of Technology™ is a subsidiary of Scholars Global Tech Corporation® - Platform for Skills and Talent Development.

We offer certified online courses in the fields of Computing, IT and Technical Studies leading to Skills Acquisition and Professional Certification. All courses are tailored to meet individual specific career needs.

Mission

Our Mission is to make Technical Education and Certification accessible for career advancement by providing a Flexible, Affordable and Effective E-Learning experience.

We believe that technology education is for everyone and we are committed to making technical education and professional training more accessible, so more people can share their talents and take their careers to the next level.

We also believe that technology education enhances individual learning, critical thinking and removes educational boundaries towards skill development, career advancement and national development.

Bonnie B. Johnson
Vice President of Academic Council

The design of the course materials offer a tremendous opportunity for individuals to study comprehensively without the constrains of time and location, whether you are learning from your Desktops, Laptops or Smart Mobile Phones, we've got you covered.

You have unlimited access whether online or offline, the video lectures are downloadable for offline learning suitable for students with limited internet access.

☑ INDUSTRIAL TRAINING

We help improve your practicality and gain industry experience via our Industrial Training program.

Industrial Training is on the job training designed to help improve practical skills and gain industry experience on a course program.

If you are interested in our industrial training, you will be asked to print out an industrial training letter upon successful completion of the online training, this letter will be submitted to any organization that specializes in the area of your course program in your country for 4 - 8 weeks (or more depending on course) for freelance work and observation on your chosen course for real industry experience.

Benefits of Industrial Training:-
☑ Practical Skill Acquisition
☑ Industry Experience
☑ Job Opportunity
Note: Industrial Training is optional
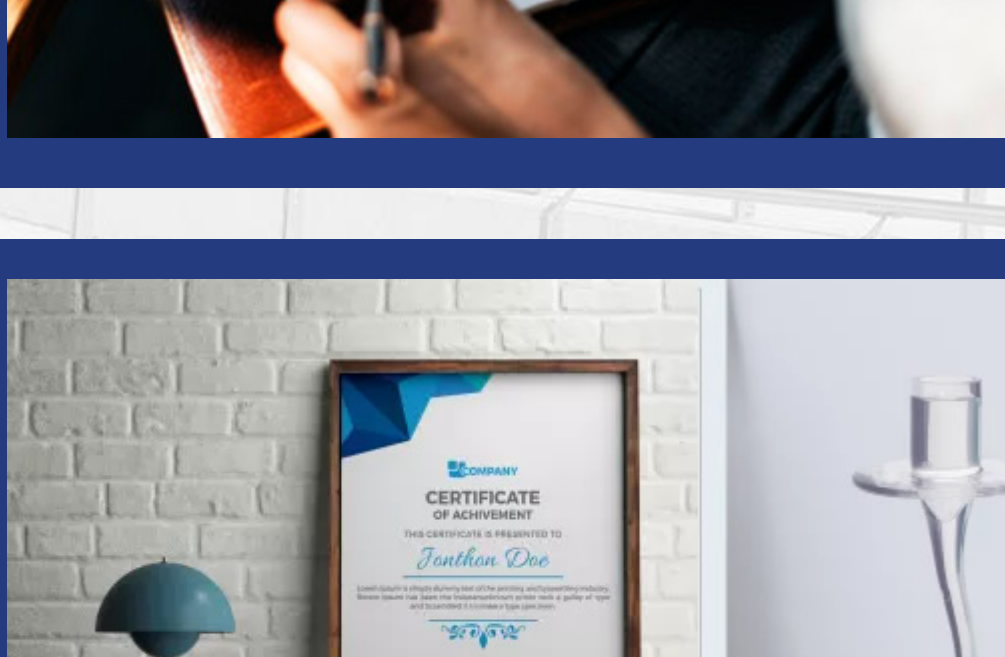

☑ EXAMINATION RETAKE AVAILABLE

Exam re-take is available without any additional fee or charge.

In case you fail the exam at first attempt, you have nothing to worry about. You can re-visit the course and re-attempt the exams with no additional fee.

☑ EARN DIPLOMA CERTIFICATE

☑ A level of competence commonly accepted and valued by the industry.
☑ Many employers give preference in hiring applicants with certification.
☑ They view this as proof that a he/she knows the processes and technologies required.

A Diploma Certificate will be issued in your name, emailed to you upon successful completion of the Online Exams.

The certificate is professionally designed; you can use high quality paper for printing out directly from your email, or if you wish you can request for a print copy from us to be shipped to your physical address which attracts a print and shipping fee. The certificate is personalized with your name, date, the title of the course and signed by our certifying officer.

ALL TESTIMONIES

SIIT is the best among the rest in terms of affordability, accessibility, well instructors and conveniency.
K. Kenny.

I just completed diploma course on Refrigeration and Air-conditioning, and certificate has already been issued to me. Therefore, I thank the management of SIIT for this good work.
Sylvester U.

Thanks a lot. Am now proud of my diploma certificate. It now want to find out if I stand a chance to enrol for degree from your institute.
Wright W.
